EDUCATION

Unicarioca University Center

Technologist in Systems Analysis and Development

February 2022 - February 2025

PROFILE

Young Front-end Developer, I have experience in web interface development. I'm always looking to improve my knowledge, studying constantly, gaining experience and consequently becoming a better developer with each project. Consistent, resilient, communicative, good interpersonal skills and prepared for any challenge.

GOAL

To secure a position to start my career in the Technology field, I seek an opportunity that allows me to demonstrate my skills while contributing value and growth to the team and the organization.
